Daycare Center

Bringing Potential to Life

Although we create space for our maternity house littles, we serve many families from our community.

Our center provides a safe, nurturing, and stimulating environment where children can grow, learn through play, explore and develop in preparation for kindergarten.

We currently have two programs operating at our center; 3-5 program and infant/toddler program. At Cherub's Inn we have capacity to care for 28 children.

We are grateful for the trust and confidence parents place in us in caring for their littles.

Board Of Directors

Future Hopes and Plans

Focus on stabilizing and refining our services, building strong foundations that allow us to walk faithfully and sustainably alongside the moms and families we serve.

Secure a 'family space' where involved dads are able to spend quality time with their little ones.

Welcome more young moms and their babies into our maternity house.

Secure ongoing funding for staffing to ensure sustainability and optimum supports for our residents.

Increase public awareness and engage volunteers to actively support our clients.

Each contribution of support from grants, sponsorships and individual donors is allowing us to provide resources and quality essentials to those we serve.
